

TRAINING COURSE

ENDOSCOPIC CARPAL TUNNEL RELEASE

ECTR Lab & Live Surgery

Hosted by Professor Giorgio Pajardi in Milan, Italy

Professor Giorgio Pajardi

*Hand surgery
specialist*

June 25-26

Meeting point:

Novotel Milan Linate
Via Mecenate 121
20138 Milan, Italy

The two-day **SmartRelease® ECTR Lab & Live Surgery Training Event** in Milan offers a comprehensive educational program focused on the endoscopic treatment of carpal tunnel syndrome using the **SmartRelease®** system - the preferred choice of many leading hand surgeons worldwide.

Led by **Professor Giorgio Pajardi** and his team from the **Department of Plastic & Hand Surgery, Gruppo MultiMedica**, participants will have the opportunity to further enhance their experience with the endoscopic carpal tunnel release technique - from theoretical foundations and cadaveric training to participation in live surgery.

The program is designed to encourage **exchange of knowledge and practical approaches** among experienced surgeons, supported by hands-on learning and observation of real surgical procedures.

ENDOSCOPIC CARPAL TUNNEL RELEASE

Program:

Thursday, June 25th

20:00 - Meet in Novotel Linate Lobby for Transportation for dinner

20:30 - Dinner at Antica Trattoria Monluè - Via Monluè, 75

Friday, June 26th
